Assignments for Meeting on Mar. 16, 2021 (1/2)

Assignments for Meeting on Mar. 16, 2021 (2/2)

▶ Do the extra assignment in Hand-in Exercise 5 in TSFS12 (Appendix A). In particular, using the pre-processed I-80 highway data from the NGSIM database as a basis, investigate different configurations of the neural network as well as other approaches to learning, e.g., using available implementations in the package scikit-learn. The pre-processed data will be distributed to registered course participants via e-mail.

▶ Next meeting: Tuesday March 16, 2021, at 15:15 in Zoom.

▶ Lecture responsibility: Carl Hynén.

▶ Please find an updated schedule for the remaining meetings on the course homepage.
